PROFILE SUMMARY

Detail-oriented B.Tech student with strong expertise in Java, Data Structures & Algorithms, and backend development using Spring Boot. Proven ability to build efficient applications and collaborate through active involvement in student organizations. Eager to contribute to real-world software engineering projects and continuously improve technical skills.

WORK EXPERIENCE

SDE Intern | Bluestock Fintech

Oct 2025 - Dec 2025

- Developed and integrated REST APIs for financial data processing
- Built responsive front-end interfaces and implemented MySQL database solutions
- Contributed to production-level fintech applications
- Applied stock market analysis concepts in financial systems

PROJECTS

URL Shortener Web Application

- Developed a URL shortening application using Java, Spring Boot, and Maven
- Implemented REST APIs for generating short URLs and handling redirection
- Achieved efficient O(1) lookup using in-memory hashing
- Built a simple frontend using HTML, CSS, and JavaScript for user interaction

EDUCATION

B.Tech in Computer Science and Engineering
(E-commerce and Technology)

Sept 2023 - present

Vellore Institute of Technology, Bhopal
CGPA: 8.04

Senior Secondary (XII) | ICSE

2021 - 2022

Bishop Johnson School and College, Prayagraj
84.7%

SKILLS

Languages: Java, Python

Core: DSA, OOP

Web: HTML, CSS, JavaScript, REST APIs

Tools: Spring Boot, Maven, Git, MySQL

EXTRA-CURRICULAR ACTIVITES

- Event Management Member, UI/UX Club - Coordinated and executed club events
- Content Team Member, Insights Club - Created and managed content for outreach
- Design Team Member, E-Commerce Club - Designed posters and promotional mater
