

Aditi Verma

B.Tech in Computer Science at VIT Bhopal

Backend-focused developer skilled in Java, Spring Boot, REST APIs, and scalable application development. Strong foundation in Data Structures & Algorithms, DBMS, Object-Oriented Programming, and backend system design with hands-on experience building real-world software projects.

EXPERIENCE

BlueStock — SDE Intern

Remote, India 10/2025- 11/2025

- Developed and integrated REST APIs for fintech workflows using Java and Spring Boot.
- Designed MySQL database schemas and optimized backend data operations.
- Built responsive frontend modules and collaborated on production-grade feature development.
- Contributed to end-to-end feature delivery in an agile development environment.

EDUCATION

B.Tech in Computer Science & Engineering, VIT Bhopal | 2023 – 2027

CGPA: 8.15

PROJECTS

URL Shortener Web Application([Github](#))

Tech Stack: Java, Spring Boot, Maven, HTML, CSS, JavaScript

- Built a URL shortening service using Spring Boot and REST APIs supporting short-link generation and redirection.
- Designed backend logic for unique short-code generation and efficient URL retrieval.
- Implemented responsive frontend interfaces using HTML, CSS, and JavaScript.
- Structured the application using layered architecture and Maven dependency management

Stress Detection System

Tech Stack: Python, Machine Learning, Computer Vision, NumPy, Pandas

- Developed a machine learning-based stress detection system using behavioral and user interaction data.
- Performed preprocessing, feature engineering, and model training using Python libraries such as NumPy and Pandas.
- Evaluated prediction accuracy across multiple ML models and optimized feature selection.
- Built a simple interface for visualizing prediction outputs.

ACHIEVEMENTS & ACTIVITIES

Core Member, Event Management Team — UI/UX Club

Core Member, Design Team — E-commerce Club

Core Member, Content Team — Insights Club

SKILLS

Programming Language:

Java, JavaScript, Python

Backend & Databases:

Spring Boot, REST APIs, Maven, MySQL

Web Technologies:

HTML, CSS, JavaScript

Machine Learning & Data Science:

Machine Learning, Computer Vision, NumPy, Pandas, Data Preprocessing

Core Computer Science: :

Data Structures & Algorithms,, DBMS, Operating Systems, Computer Networks

Tools & Platforms:

Git, GitHub

Soft Skills & Leadership:

Team Collaboration, Communication, Leadership, Event Management, Time Management, Creative Designing, Problem Solving

CERTIFICATION

Coursera — Industrial IoT Markets and Security

NPTEL — Marketing Management and Deep Learning

VITYarthi — Fundamentals of AI & ML and Python Essentials
